HOLODOMOR 1932–1933
GENOCIDAL FAMINE IN UKRAINE

HOLODOMOR MEMORIAL DAY IN SCHOOLS
NOVEMBER 22, 2019

“A genocide begins with the killing of one person, not because of what he has done, but because of who he is.”

November is the month for remembrance of the Holodomor, one of the major genocides of the 20th century. Holodomor means death inflicted by starvation. In 1932-1933 Ukraine was devastated by a famine caused by the policies of Stalin and his Communist government. Millions died, but it was denied, covered up and ignored for over 50 years.

There was no drought, nor any shortage of grain in the fields. The Holodomor took place in a time of peace. While millions of men, women, and children were dying in Ukraine, the government of the Soviet Union confiscated wheat and other grains from Ukraine to be exported and sold to other countries, and to feed its own population in industrializing cities. Many Ukrainian villages had all food taken away as well, leaving farmers and their families with nothing to eat. Food was thus used as a weapon. 31% of those who died of starvation were children under the age of 10.

International relief organizations offered to provide aid for the starving, only to be turned away by the Soviet regime which insisted there was no famine in Ukraine, and thus no victims to help. To even speak of the Famine was forbidden in the Soviet Union for decades. Many who survived could not tell their story even to their own families. Denial of the Holodomor continues to this day in some countries, despite the mounting evidence and testimony of survivors.

Fake news is not a modern phenomenon. Journalist Walter Duranty wrote articles in The New York Times denying famine in Ukraine and attacking those who wrote about it. He is now discredited. Others, like Canada’s Rhea Clyman, wrote about the starvation and suffering, but not enough people were listening.

In Canada, the federal government along with six provinces, including Ontario, have designated today as Holodomor Memorial Day. As we take a moment to remember the victims of the Holodomor, let us also reflect on the actions we can take daily to combat genocide and the abuse of human rights in our world.

TORONTO HOLODOMOR MEMORIAL

Unveiled in October 2018 for the 85th Commemoration of the Holodomor in Ukraine, the *

Bitter Memories of Childhood* monument is by sculptor Petro Drozdovsky.

Located just NE of the Princes’ Gate entrance of the Canadian National Exhibition (CNE) grounds, the memorial site includes pathways through to a series of expressive contemplative symbols where students can learn about the Holodomor on their way to see this iconic sculpture.

Other Holodomor memorials in Canada may be viewed in Winnipeg, Edmonton and Regina.

APRIL IS GENOCIDE REMEMBRANCE, CONDEMNATION, PREVENTION AND EDUCATION MONTH

On April 24, 2015, the House of Commons unanimously passed a historic motion (M-587) to recognize the month of April as Genocide Remembrance, Condemnation and Prevention Month.

Canada has been affected by many genocides and recognizes: the Armenian Genocide, Ukrainian Holodomor, Jewish Holocaust, the Genocide Against the Tutsi in Rwanda and the Genocide in Bosnia. The Canadian Parliament has also recognized the ongoing genocide being committed against the Yezidi in Syria and Iraq today, the Rohingya in Myanmar and the Romani during WWII.

Educators are encouraged to take time in April to remember those who suffered and lost their lives in the Holodomor and other genocides, to commit to using education to protect and defend human rights and dignity everywhere, and to stand up against prejudice, hate and other forms of exclusionary practices that are known precursors to crimes against humanity.
